

BLX-II LED Specifications

BLX-II-4 Post Top Mount Shown

Project Name:

Catalog Number:

Type:

The new **BOW LX II LED** Series continues the unique contemporary design inspired by the sleek styling of the BOW family. Separating the extruded aluminum driver housing and the individual die-cast aluminum linear LED engines: optimize the life of the LEDs and the Driver(s); and maximizes the lumen output of the fixture. The adjustable knuckle allows for up to 50° degrees of vertical adjustment for putting the light exactly where you need it.

Each of the individual LED light engines come with 32 LEDs; for a max total of 256 LEDs. Nine optical distribution patterns are available.

A unique Type 4-A automotive distribution pattern is available for the front rows of Auto Dealerships. Available in 3000, 4000, 5000 Kelvin temperature.

A durable polyester powder coat finish is guaranteed for five years; and is available in standard or custom colors.

The **BOW LX II LED** series is an exceptional choice for auto dealerships, shopping centers, commercial parking lots and general area lighting.

Features & Specifications

BLX-II

Housing

- The LED light engines are constructed of heavy-duty, die-cast aluminum, with external heat radiating fins.

Driver Compartment

- The separate driver housing is constructed of extruded aluminum, with vented cast aluminum end covers and stainless steel fasteners; for easy access to the LED driver(s); allowing for cooler operation and longer driver life. One-piece gasketing is utilized throughout the fixture for weather tight operation.

Thermal Management

- The BOW LX II Series provides excellent overall thermal management by maximizing the fixture's heat sink capabilities. This enables the BOW LX II Series to withstand higher ambient temperatures and drive currents without degrading LED life.
- The L70 test determines the point in an LEDs life when it reaches 70 percent of its initial output. The BOW LX II Series LEDs have been determined to last a minimum of 100,000 hours in 25°C environments when driven at 350 mA.

Optical System

- The highest lumen output, LEDs are utilized in the BOW LX II Series. IES distribution Types I, II, IV, IV-A, V, V-W, V-WR, FM and FN are available. LED light engines come in multiples of 32 LEDs.
- CRI values are 70.

Quali-Guard® Finish

- The finish is a Quali-Guard® textured, chemically pretreated through a multiple-stage washer, electrostatically applied, thermoset polyester powder coat finish, with a minimum of 3-5 millimeter thickness. Finish is oven-baked at 400 °F to promote maximum adherence and finish hardness.
- All finishes are available in standard and custom colors.
- Finish is guaranteed for five (5) years.

Mounting

- An adjustable knuckle slip fits over a 2 3/8" Tenon, and allows for up to 50° degrees of vertical adjustment in 10° degree increments from horizontal, as well as full side to side adjustment with the knuckle mount.
- The Bolt-On Arm (BOA) utilizes a 2 piece cleat system for easy installation. A Round Pole Plate Adaptor (RPP) is required for mounting to round poles.
- Mast Arm Fitter fits over a 2 3/8" tenon.
- Post Top fits over a 2 3/8" tenon and is adjustable up to 45°.
- Trunnion Mount is adjustable up to 50°
- Adjustable Wall Mount
- Bolt-On Arm Wall Plate
- Bolt-On Arm Wall Plate-XL

Electrical Assembly

- The BOW LX II Series is supplied with a choice of 350, 530, 700, or 1000 mA high-performance LED drivers, that accept 120v thru 480v, 50 Hz to 60 Hz, input.
- Rated for -40 °C to +55 °C operations.
- Power factor of 90%.
- THD less than or equal to 20%
- 20 kV surge protector supplied as standard.
- 0-10v Dimming Driver supplied as standard.

Warranty

- Five (5) year Limited Warranty on entire system, including finish. For full warranty information, please visit VisionaireLighting.com.

Options

- Button Type Photocell
- Photocell & Receptacle
- Photo Receptacle
- Round pole plate adaptor
- Motion Sensor
- Pole Mounted Motion Sensor
- Universal Pole Mount Adaptor (BLX-II-3, BLX-II-4 & BLX-II-6 Only)
- Decorative Shroud
- Cut-Off Louver Shield
- Back Side House Shield

Listings

- BOW LX II Series is UL listed, suitable for wet locations
- Meets ANSI C136.31-2010 3G Vibration Standards
- Powder Coated Tough™
- IP-66 Rated
- IDA Certification
- Pangealink

3000K must be selected with a fixed mount for IDA certification.
Fixed mount must be selected for IDA dark sky certification.

BLX-II LED Specifications

BLX Features

BLX-II Mounting Options

Post Top Mount

Post Top fits over a 2" - 2-3/8" tenon and is adjustable up to 45 degrees.

Mast Arm Mount

Mast Arm Fitter fits over a 2" - 2-3/8" tenon.

Knuckle Mount

An adjustable knuckle slip fits over a 2-3/8" Tenon, and allows for up to 50 degrees of vertical adjustment in 10 degree increments from horizontal, as well as full side to side adjustment with the knuckle mount.

Bolt-On Arm Mount

The Bolt -On Arm (BOA) utilizes a 2 piece cleat system for easy installation. A Round Pole Plate Adaptor (RPP) is required for mounting to round poles.

Trunnion Mount

Trunnion Mount is adjustable up to 50 degrees.

Adjustable Wall Mount

Adjustable Wall Mount allows for up to 50 degrees of vertical adjustment in 10-degree increments.
